

D · PREP

Join Dr. Van Brunt, Jeff Solomon, and Nina Delgadillo as they share the how stop school and workplace shootings before they occur through violence risk and threat assessment. They will share how to do this through a two-step approach of first identifying risk through the Pathways triage expert system then assessing the risk with the DarkFox violence risk assessment tool.

PATHWAYS

Pathways offers a user friendly, behaviorally based gateway screening for a variety of challenges related to mental illness, threats, and disruptive/dangerous behavior.

DARKFOX

DarkFox offers an easy-to-use expert system that develops a threat report covering the areas of vulnerability, negative thoughts, environmental stressors, suicidality, attack preparation, attack approach, and threat.
