

BIT/CARE Tune-Up

Keeping Your Team Running at its Best

The Problem

Even the most experienced BIT and CARE teams require routine maintenance. Policies drift. Documentation becomes inconsistent. Triage varies under pressure.

Over time, small inefficiencies compound into real risk.

The Solution

The BIT/CARE Tune-Up recalibrates your team's practices quickly, practically, and with immediate impact.

What This Series Does

- ✓ Re-aligns team decision-making and triage practices
- ✓ Strengthens documentation and legal defensibility
- ✓ Clarifies roles across BIT/CARE, conduct, Title IX/VI, and case management
- ✓ Builds consistency during high-volume and high-risk periods
- ✓ Addresses emerging challenges (political climate, neurodiversity, disengaged students)

Bottom Line

A short investment of time that reduces long-term risk, improves consistency, and strengthens team confidence.

How It Works

- ✓ Choose 1, 2, or 3 targeted sessions
- ✓ Each session is 90 minutes, practical and case-informed
- ✓ Designed for full team participation

What You Receive

- ✓ Recording access for one full year
- ✓ Downloadable handouts and implementation tools
- ✓ Optional attendance reporting for compliance/tracking
- ✓ Optional tailoring using your team's real-world scenarios

Investment

- ✓ 1 Session: \$1,750
- ✓ 2 Sessions: \$3,300
- ✓ 3 Sessions: \$4,800

D·PREP
SAFETY DIVISION

Select from the following targeted 90-minute workshops to address your team's specific areas of need.

When Faculty Feel Unsafe: Navigating Classroom Concerns

Support faculty in recognizing risk, managing classroom concerns, and reporting effectively while distinguishing discomfort from credible threats and appropriate BIT/CARE involvement.

Case Walkthrough Lab: Applying the Tools in Real Time

Work through a full case using Pathway and DarkFox tools to strengthen triage, decision-making, and consistency across direct threat, online behavior, Title IX, and mental health scenarios.

Documentation That Holds Up: From Intake to Final Notes

Improve clarity, consistency, and legal defensibility in documentation from initial report through final notes, reducing liability and strengthening team communication.

When Students Don't Respond: Engagement and Escalation

Develop clear strategies for outreach, documentation, and escalation when students disengage, including thresholds for conduct involvement and managing institutional liability.

High-Volume Triage: Staying Consistent Under Pressure

Maintain consistent triage and decision-making during peak periods, ensuring high-risk cases are prioritized without sacrificing quality or overburdening staff.

Neurodiversity and BIT/CARE: Understanding Behavior in Context

Differentiate behavioral risk from neurodivergent traits, improve communication, and apply appropriate interventions while reducing misinterpretation and bias in team responses.

Navigating Political Climate and Immigration Concerns

Respond to student fear, political tension, and immigration-related concerns while maintaining clear boundaries, consistent messaging, and appropriate BIT/CARE involvement.

Title IX, Title VI, and BIT/CARE: Working Together Without Overlap

Clarify roles, improve coordination, collaborate effectively and avoid duplication when cases intersect across BIT/CARE, Title IX, and Title VI processes.

Medical Leaves and Students Not Ready for College

Assess readiness, manage voluntary and involuntary medical leaves, and support clear, defensible decisions around student well-being and institutional capacity.

Conduct or BIT/CARE? Navigating the Gray Area

Determine when cases belong in conduct, BIT/CARE, or both, using clear criteria to eliminate silos, reduce gaps, duplication, and inconsistent decision-making.
